2 Agenda

- Review of comments and issues opened to the Review Process - *OpenETCS ReviewProcess-0.3* document
- Distinction between the scope of Revision and Review processes

3 Discussion

- It has been decided to define two different processes:
 - A Revision process involving committers based on *OpenETCS ReviewProcess-0.3* document using GitHub, Smartgit, LaTeX
 - A simplified Review process involving the *external community* using the *Issue tracker*
 - Two different documents will be prepared.
 - Versioning strategy will be developed by Jonas Helming.
