Minutes by	Stefan Rieger

## 2 Agenda

- ITEA Review Meeting
- publications of references with the Zotero tool

## 3 Discussion

- in today's WP6 phone conference we discussed the preparation for the ITEA review meeting. We need your help with the following to-dos:
  - \* Please send me all of your publications that reference the openETCS project (as PDF files). They need to be provided to ITEA.
  - \* Please provide us some input regarding your exploitation plans (e.g., short text or simple slide). If we do not get input we are forced to fall back to the information from the FPP.
- The second topic was a brief introduction to the management of publications of references with the Zotero tool. I created a Wiki page that describes how to setup the software and your account:

<https://github.com/openETCS/Dissemination/wiki/Management-of-Publications-and-References>

It's really easy to use and we kindly ask you to contribute by providing your publications and references via Zotero. All partners will benefit from this database.
