2 Agenda

- Short summary of this week results.

3 Discussion

- Braunschweig small cluster meeting took place
Siemens presented the results of the bitwalker formalising Subset-026 chapter 7 and 8. The formalization of chapter 7 will be available in model and code by the end of August.
A draft of the Lab interface towards the testing environment was presented by DLR. A first version of the interface specification will be provided within the next two weeks. Integration timeline for the testing environment (RT-Tester) was settled to start testing at the 1st of September.
First steps for code verification were coordinated between Fraunhofer and Siemens. Possibilities how to include EFS were discussed.
- work on validation and verification plan
An updated Version of the Verification and Validation Plan has been uploaded and can be found here: <https://github.com/openETCS/validation/blob/master/VerificationAndValidationWP41-VerificationAndValidationPlan.pdf>
Please look out where you can contribute.
- Wednesday the Telco on Testing Activities took place.
For the results, please visit the Wikipage <https://github.com/openETCS/validation/wiki/Testing-Telco:-Agenda-and-Results>
- Safety/ Process
Tuesday the Telco on Safety Activities took place. For the results, please visit the Wikipage <https://github.com/openETCS/validation/wiki/Safety-Telco:-Agenda-and-Results>

Recap of V&V level 1 progress decisions was discussed
