- Concept of using the issue tracker with milestone and label

3 Discussion

- V&V plan activities
  See status and contributions on Github. Issue tracker is in use to follow up progress and plan.

- Safety Plan Review
  Review on Prelimiary Safety Plan has been finalised. Final version will be presented on next weeks workshop.

- Concept of using the issue tracker with milestone and label
  The issue tracker is now in use to implement the W&V Backlog. In order to support full traceability a "print"button is required. Function: collect all issues with some basic information into a single document.
