Minutes by	Sylvain Baro

2 Discussion

- WP2 documents review

3 Discussion

- WP2 documents review WP2 documents are in review
  D2.3 and D2.4
  D2.3 comments already received and excel sheet will be sent in order to finalize before the end of the month
  D2.4 D. Mentré in charge
  DB asked for a telco to settle some points. If it is necessary it will be done probably next week.

  D2.6-D2.9 : call for comment closed.
  DB asked for a telco in order to decide if the document shall be split in different documents. WP2 point of view is that it is not a problem to have several deliverable in one document. It makes easier to guarantee consistency of the document. Beside, the subject was already discussed in Köln meeting while the schedule was being built.
  Status of the API document is being discussed with Alstom.
  Repository will be cleaned afterward to be more compliant to the decision.
